For this amount of money, you get a decent number of cosmetics for a range of survivors and killers. Definitely something to pick up if you want some new cosmetics that actually look above average and why not also support charity.

The only downside is that killer cosmetics are not that great, however, if you have nothing else, then why not.. The worst combat mechanics I've ever seen. Good game, just wish more people were playing it because finding a game can take a while.. Very short game, I finished it in 4 hours. While playing, I didn't find the game to be that much fun, and I would not recommend it to anyone unless it was free.. Positive Review for statistics because it's worth it. Hands down the greatest game of all time. The story is the best I've ever encountered. Anyone who thinks that video games aren't art need only play this game to change their mind.. I have no words... Just brilliant. It left me wanting more

---

Not very good, unfortunately.

The art style is definitely the shining aspect of the game, and it's very pretty, but the gameplay is incredibly generic and frustrating. I know it's a rage game, but the number of times I've died due to wonky collision and not being able to discern safe areas from dangerous hazards makes me fit this into the category of "rage-games-that-don't-feel-quite-fair."

Maybe it's because I have a patience problem, but after dying to the same level a bajillion times I just have no drive to play the game anymore. It's probably fun for a few people but it isn't quite my game.. Oh yeah!!! Dirtbag! No, she don't know what she's missing!. i love the graphics and controls in this drunk fighter game! fighting the world. Game is not bad, very hard, but I had fun playing it. For only 50 cents i will recommend it, and if you don't like it, again, it's only 50 cents. And hey, it's got trading cards. ;). Really great game. Love the concept. The factions and quests were well done.

All in all I would give the game ... 7.5/10.

What this game really needs is content. A very small number of quests that get over pretty quick.

Otherwise, this game can go a long way. The DLC's look very promising as well.

Buy the game if its on sale. Its definitely worth a play.. Recently picked up this game on super sale. Definitely worth it! A surprisingly compelling story! Half-way through the game had me at the edge of my seat. I'll be giving this a second play-through to see how it goes! Highly recommend.
